VINCENZO VINCI

Vincenzo Vinci lives and works in Milan where he graduated in industrial design at the renowned Polytechnic University. With more than ten years of experience today the studio specializes in fields ranging from product and interior design and visual to technological innovation and prospective research. This open minded attitude, combined with a peculiar sensibility for historical heritage, and a deep understanding for material, production processes and market requirements, is clearly expressed in its creations and work method. This distinctive approach has been recognized with numerous awards including international ones such as Good Design Award by The Chicago Athenaeum, Red Dot award, A' Design Award.

The elegance and the minimal outline of FATA chair draws inspiration from classic mid-century chairs. Contemporary in design, which is lightweight and practical. FATA chair comes in a mix of veneer and plastic. It is the result of a challenging work carried out together with the injection moulding engineers aiming to create the perfect dialogue between different materials respectful of the structure stress regulations. The result is an instant classic.

Designer Vincenzo Venci, has strived to rethink the term “classic” when creating FATA, by mixing materials and matching colors. The backrest comes in plastic. Available in 4 different colors including black, white, green and red. Seat comes in natural oak veneer or in black or white colors. Single FATA chair is a stackable side chair which stacks 3 high. Ideal for elegant contract spaces, bars or home. Canteen Fata chair is a four-seater integrated unit, ideal for restaurants, school canteen.

VEB

INTRODUCTION

VEB DESK is a mobile, foldable table that make it possible for organizations to design,configure and easily reconfigure spaces to encourage interaction,team-work,learning, and problem solving.Very intuitive ,the top can be flipped by one botton,the patented flip system designed and developed to be simple,durable and intuitive is integrated into the table,with no additional outside hardware that can be misplaced or get damage. Once the top is flipped, the tables can be stored to save space.Veb can significantly reduce the costs associated with space by increasing their rate of use.Users need facilities to be flexible, they need to be able to set up different configurations quickly and easily and to handle speedy changeovers between training sessions,class-room, group meetings or conferencing.Veb has been specifically conceived for this purpose and offers a multiplicity of uses, from boardroom to meeting and training rooms, from classroom to informal gathering areas.

FINI

INTRODUCTION

FINI CHAIR respond to the need for an easy-to-carry, easy-to-stack, and easy-to-move chair. Designed for quick sits between meetings, trainings and teamworks, Flexa delivers significant comfort with a waterfall seat edge that eases pressure points. The slots in the backrest offer cooling ventilation and its shape comfort to body shape, and no-fuss elbow rests let you move close to your desk without adjustments. FINI allows you to move freely, create dynamic spaces, and store it easily because it is designed for easiness in vertical stacking thanks its tip-up seat that is available in six fashion colours.

STAR

STAR C-LEG CHAIR is an ideal chair for classroom. It comes with different colours to brighten up our classroom mood and the unique curve back gives the student a firm and uncompromising comfort! The most prominent feature of the chair is the back design. The back design is sleek but at the same time, it provides a firm support to the back while sitting down. This helps the student to feel more secure and comfortable. The curved backrest also could become a comfortable armrest in any case. The narrow, highly curved backrest allows maximum freedom of movement for student. Let student learn most effectively.
